

MIC ULTRA DRC FOLIAR

ULTRA DRC FOLIAR

Plant Growth Booster

Amino Acid | Citric Acid

Contents:	Minimum %:
SiO_2	35.0
Fe_2O_3	10.0
CaO	18.0
MgO	4.0
K_2O	1.0

Crops and Rate of Use:

Crop	Application Rate	Application Method (By Foliar application, pivots and sprayers/ sprinklers)
Vegetables (Open Field, Green House) Cereals & Forages	3 kg/ha	1. 4 times/season 2. Two weeks after planting 3. Every 2-3 weeks
Potatoes		1. 15 days after the beginning of vegetative growth 2. Every 15 days
Fruit trees		3 times/season 1. During bud formation stage 2. After fruit setting 3. During fruit ripening stage
Ornamentals		1. 4 times/season 2. Every 2-3 weeks

Recommendation: To obtain specific recommendations tailored to your growing conditions and crop requirements, it is advised to consult with a local agronomist or agricultural extension service.

Features:

- Introducing Ultra DRC Foliar, a premium powder product crafted from naturally occurring volcanic rocks. This processed substance has an abundance of over 40 trace minerals, expertly micronized to achieve a particle size of 10 µm.
- Our innovative product is infused with amino acids to enhance photosynthesis and optimize plant physiology.
- Incorporating citric acid into our formula ensures that specific nutrients are more readily available and easily absorbed by plants.

Benefits:

- Ultra DRC Foliar optimizes the efficiency of plant nutrition and improves the quality of the yield.
- Our product effectively addresses and eliminates common deficiencies, providing immediate solutions to these issues.
- Ultra DRC Foliar enhances plant resistance against diseases, pests, and stress factors by improving leafthickness.
- Our product reduces the need for chemical fertilizers and pesticides, promoting sustainable and eco-friendly agricultural practices.
- Ultra DRC Foliar is versatile and can be used with a wide range of different crops, soils, and environments.
